

Resolution 1. Amended Farmer Resolution, Submitted by Resolution Committee.

Whereas: In May of 1986 Congress passed and the President signed into law the Gun Owners' Protection Act; and

Whereas: A provision of that legislation was the ban of importations and manufacture of machine guns; and

Whereas: The ban on importation and manufacture of machine guns could have been removed in conference committee had the nation's gun owners advocated for its removal; and

Whereas: In the fall of 1986, at the first Gun Rights Policy Conference held in Bellevue, Washington, Mrs. Linda Farmer of Georgia introduced a resolution that any attack on one class of firearms is an attack on all classes of firearms; and

Whereas: The Farmer Resolution was approved by the delegates in attendance without opposition; and

Whereas: The Farmer Resolution has been proposed and approved by the delegates in attendance at every Gun Rights Policy Conference since 1986; and

Whereas: Further constrictions on firearms, ammunition, and components on each continue to be made,

Whereas: The Second Amendment guarantees the right to keep and bear arms, and arms are not limited to firearms, therefore an attack on any class of arms is an attack on all classes of arms;

Now therefore be it resolved by the delegates assembled at the Gun Rights Policy Conference in St. Louis, Missouri, this 27th day of September, 2009 that: Gun owners across the nation continue to support the Farmer Doctrine amended to 'an attack on any class of arms is an attack on all classes of arms.'

Committee Recommendation: Adopt. **Resolution adopted without opposition after discussion.**

Resolution 6. Submitted by Jeff Knox, The Firearms Coalition

Whereas: The banning of any personal tool or weapon has never resulted in increased public safety,

Now therefore be it resolved by the delegates assembled at the Gun Rights Policy Conference in St. Louis, Missouri, this 27th day of September, 2009 that: We support the repeal of the Federal Switchblade Act and any other federal, state or local laws and regulations banning tools and weapons rather than addressing behavior.

Committee Recommendation: Approve. **Resolution adopted without discussion.**
